

Spa Software

If you are looking for a leader in Beauty Salon Software, Salon Software, Spa Software, Nail Salon Software or Medical Spa Software, SalonPro is the name you can count on with the features you need. SalonPro™ is currently installed in thousands of salons worldwide and is one of the easiest to learn and use software packages available. We have a diverse user base ranging from booth rental, small to large hair salons, nail salons, day spas and medical spas. Our software is time tested with satisfied clients since 1989.

Cash Drawers

The CR3000 family of cash drawers have a footprint of only 15.7 x 16.1 x 3.3 inches for the space conscious purchaser and an internal cash tray that rivals much larger drawers through efficient use of internal space. Five bill and six coin compartments can be easily adjusted to customer's needs. Precision machined parts and ball bearings guides assure wobble-free drawer movement and an amazingly smooth ride. All drawers have contemporary styling a large media slot three-position key lock and no exposed screws for extra security.

Available in 3 different interfaces:

Serial Interface: Serial interface can be used stand alone, not run by a receipt printer. Optimal for salons that do not print receipts, or use full page receipts.

USB Interface: USB interface can be used stand alone, not run by a receipt printer. Optimal for salons that do not print receipts, or use full page receipts. This interface is useful when your hardware doesn't have available serial ports.

Printer Interface: Printer Interface cash drawers work with Citizen 40 column receipt printers. Other available receipt printers are Epson, or Star.

MS9520 Voyager Hand Held Auto-Triggered Scanner

With a futuristic design and high-performance scanning technology the MS9520 is clearly the most advanced auto-triggered scanner on the market today. Enabled for both In-stand and Out-of-stand operation Voyager can be used as a hand-held and fixed presentation scanner. The MS9520 Voyager is the perfect scanner for the salon/spa environment. Decodes all standard bar codes from up to 3 inches, even on odd shaped objects typically found in salons.

Credit Card Swipe Reader

The MiniMag Intelligent Swipe Reader is designed for POS and desktop applications where space is at a premium. The entire unit is just 90mm long (about the length of a credit card) giving it the smallest footprint of any unit with comparable features. The MiniMag is a fully intelligent swipe reader that can be programmed to divide rearrange edit and validate fields of entered data. The MiniMag reads up to three tracks of information with a single swipe in either direction. Its standard-length slot makes it easy to use. Both beeper and LED indicators signal a successful read. The MiniMag Intelligent Swipe Reader delivers exceptional functionality and value in the smallest possible package. It can be used as a free-standing unit or permanently mounted with threaded inserts on the bottom of the reader. USB-Keyboard interface.

RECEIPT PRINTERS

The CD-S500 is ideally suited for point-of-sale applications that require color or monochromatic one, two or three-ply receipts, is fast and cost-effective and has the latest in drop-in paper loading technology, all in a compact and versatile design.

CT-S300/310 (Thermal Printer)

The Citizen CT-S310 POS printer has it all: 150 mm/sec high-speed printing, the smallest footprint in its class and a dual-interface standard (USB + serial, parallel, or Ethernet) on all models. All this, plus it can be positioned horizontally, vertically, or even wall mounted for extra versatility. Best of all, it comes with the features you have come to know and trust from one of the most respected names in POS printers: drop-in paper loading, a long-life paper cutter, barcode printing, and the industry's best three year warranty.
